CASE STUDIES

"The average price for a Super Bowl ticket is currently hovering around \$9,800. That means a 15-minute wait for the restroom could cost attendees \$612. Delays also take away from the fan experience and cut into time that could be spent at the concession stands or gift shops and bars, limiting potential revenue for the stadium."

- CBS NEWS

"The long waits meant male fans who spent upward of 30 minutes in line and paid \$5,000 for a ticket -- the going rate on the street -- were essentially forced to pay \$1,000 to use the restroom."

- PRESTIGE DISTRIBUTION, INC. [Read more here](#)

"Figuring out how to keep restrooms functioning and lines short is tricky at a sporting event where people typically excuse themselves to use the restroom at the exact same point - right around halftime. So, increasingly, there's science to designing restrooms for thousands of people and laws and codes that cover it."

- JULIE AMACKER, DIRECTOR FOR CAA ICON
